Does filing only apply to certain territory (territories) or certain classes?
 If so, specify: No

Brief description of filing. (If filing follows rates of an advisory

organization, specify organization): Amending Additional Insured Charge.

Our current rating procedure is to charge a percentage of the Premises/Operations and/or Products Completed Operations premium, subject to a flat charge of \$50. Also, we currently are charging separately for each additional interest.

With this filing, we are proposing to eliminate the percentages used in our current rating procedure and to just use the \$50 flat charge. In essence, this simplifies the rating procedure as well as provides a slight rate decrease for policies that previously exceeded the \$50. At the same time, we are proposing to no longer charge separately for each additional interest. We will now be charging per type of additional interest form. For policies that previously had multiple additional interests under the same form, the new procedure will only be charging once for the type of form that is being used (regardless of the number of additional interests using that form, i.e., CG 20 26).
